

2021 Universal Registration Document

Waga Energy has published its 2021 Universal Registration Document, filed with the French Financial Markets Authority (Autorité des marchés financiers – AMF) on June 14, 2022 under the number R.22-025.

This Universal Registration Document is available on Waga Energy's website in « Investors » section, and on the AMF website (www.amf-france.org). It is made available to the public under the conditions provided for by the regulations in force.

It notably includes the 2021 annual financial report and the Board of Directors' report on corporate governance.

About Waga Energy

Waga Energy (ISIN: FR0012532810, symbol: WAGA) produces competitively priced Renewable Natural Gas (also known as "biomethane") by upgrading landfill gas using a patented purification technology called WAGABOX®. The RNG produced is injected directly into the gas distribution networks that supply individuals and businesses, providing a substitute for natural gas. Waga Energy finances, builds and operates its WAGABOX® units under long-term contracts with landfill operators for the supply of raw gas, and generates income by selling the RNG it generated. Waga Energy operates 13 WAGABOX® units in France, representing an installed capacity of 480 GWh/year. Twelve units are under construction in France, Spain, Canada and the US. Each project initiated by Waga Energy contributes to the fight against global warming and the helps the energy transition. Waga Energy has been listed since October 27, 2021, on Euronext Paris. waga-energy.com
